Description

This is a sweet and savory blend with a touch of heat that will not overpower the taste of the food. This blend is the choice for people who like a sweet, mild, but not lasting heat. The more you add the spicier it will be but it will still not be too much.

Zip's 2 Bib Rib Rub & Seasoning can be added to the meat several hours before cooking to allow the spices to penetrate. It can also be vacuum sealed and frozen with the spices on it so it will be ready for cooking upon thawing.
