Description

This blend is what it is called. It is less sweet but still savory with a good amount of heat. It will take a bit to kick in and will stick with you for a while. It will go well with your favorite sweet sauce and will knock down some of the heat.

Zip's Bold & Spicy Rub can be added to the meat several hours before cooking to allow the spices to penetrate. It can also be vacuum sealed and froze with the spices on it so it will ready for cooking upon thawing.
